

# Addition

How many are there in all? Color them in.

$$\bigcirc \bigcirc \bigcirc + \bigcirc \bigcirc \bigcirc \bigcirc = \bullet \bullet \bullet \bullet \bullet \bullet \bullet \bigcirc$$

$$\begin{array}{c} \bigcirc \bigcirc \bigcirc \\ \bigcirc \bigcirc \end{array} + \begin{array}{c} \bigcirc \bigcirc \\ \bigcirc \end{array} = \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc$$

$$\begin{array}{c} \text{Baseball 1} \\ \text{Baseball 2} \end{array} + \begin{array}{c} \text{Baseball 3} \\ \text{Baseball 4} \\ \text{Baseball 5} \end{array} = \begin{array}{cccc} \text{Baseball 6} & \text{Baseball 7} & \text{Baseball 8} & \text{Baseball 9} \\ \text{Baseball 10} & \text{Baseball 11} & \text{Baseball 12} & \text{Baseball 13} \end{array}$$

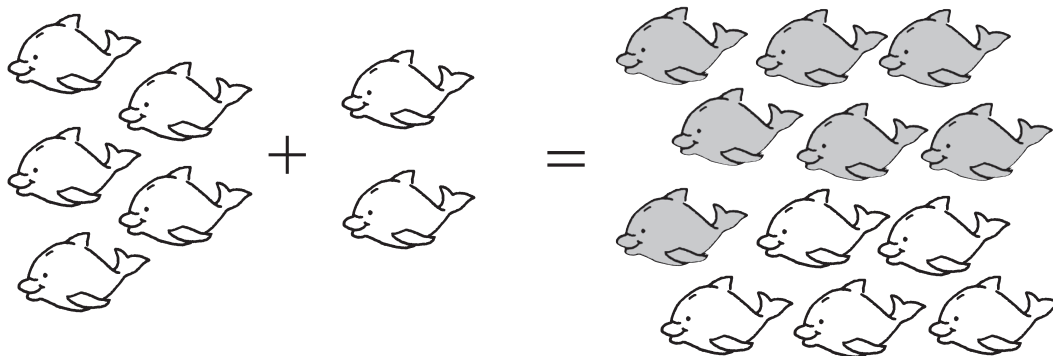

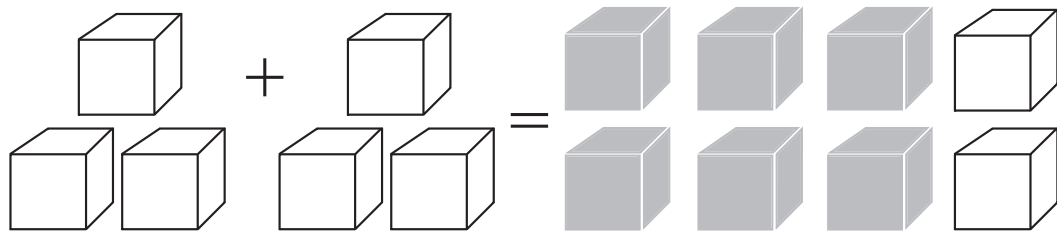

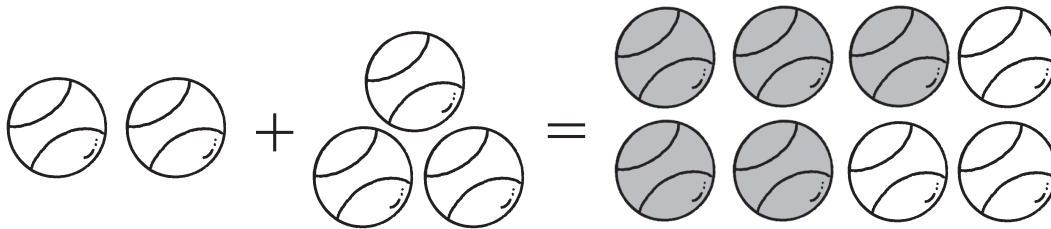

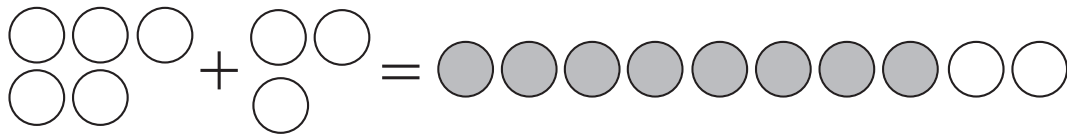

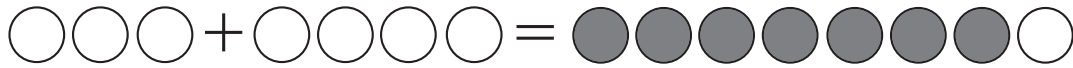

$$\begin{array}{c} \text{Cube 1} \\ \text{Cube 2} \\ \text{Cube 3} \end{array} + \begin{array}{c} \text{Cube 4} \\ \text{Cube 5} \\ \text{Cube 6} \end{array} = \begin{array}{cccc} \text{Cube 7} & \text{Cube 8} & \text{Cube 9} & \text{Cube 10} \\ \text{Cube 11} & \text{Cube 12} & \text{Cube 13} & \text{Cube 14} \end{array}$$

$$\begin{array}{c} \text{Fish 1} \\ \text{Fish 2} \\ \text{Fish 3} \\ \text{Fish 4} \\ \text{Fish 5} \end{array} + \begin{array}{c} \text{Fish 6} \\ \text{Fish 7} \end{array} = \begin{array}{cccc} \text{Fish 8} & \text{Fish 9} & \text{Fish 10} & \\ \text{Fish 11} & \text{Fish 12} & \text{Fish 13} & \\ \text{Fish 14} & \text{Fish 15} & \text{Fish 16} & \\ \text{Fish 17} & \text{Fish 18} & \text{Fish 19} & \end{array}$$

# Addition

How many are there in all? Color them in.

Suggest to children that they write the number of items below each group on either side of the addition symbol. When they find the total, they can write that number under the items they have colored in.
