

Math Review Part 3

Geometry Galore!

1. Name the type of angle (obtuse, acute, right).

2. Do the shapes below have a line of symmetry? If they do, draw the line of symmetry.

3. Name a pair of perpendicular lines.

4. In the shape below,

- circle the right angle
- highlight the parallel lines

5. Draw a shape that has parallel lines but no right angles.

Draw a right triangle.

Draw a shape with acute and obtuse angles.

6. Find the area and perimeter of the rectangles.

Area: _____

Perimeter: _____

9 feet

3 feet

Area: _____

Perimeter: _____

5 inches

12 inches

7. The town of La Belle wants to build a soccer field. They want it to be 50 yards wide and 80 yards long. What is the total area of the soccer field? Show your process.

Answer: _____

8. If the area of a room is 20 square meters and the width is 4 meters, what is the length of the room? Show your thinking.

Answer: _____

9. Solve for the missing length.

?

Perimeter = 20 cm

3 cm

Answer: _____

10. Solve for the missing width.

75 feet

? Area: 750 square feet

Answer: _____
